

Strengthening Oklahoma Families

LeFlore County

2014 FCS Impacts

SELECTED ISSUES

Health

- 4,970 babies were born from 2005-2011
- 352 babies were born with low birth weight
- 13% of the population has been diagnosed with diabetes
- 33% was estimated to be obese in 2010
- 37% have been found to be physically inactive

Finances

- \$32,778 is the median household income
- 22% of the county live below the poverty level

Jobs & Employment

- 84% of students graduated from high school in 2011
- 9.1% unemployment in the county

EXTENSION'S RESPONSE

Health

21 participants completed evaluations which asked how they plan to change their behavior as a result of attending issue team programming

- 57% decrease in those who plan to eat snack foods 1 or more times each day
- 62% decrease in those who plan to drink 1 or more sugar-sweetened drinks each day

An Arthritis Foundation Land Exercise participant told me that because she had recently broken her wrist, she was very thankful for my class. The doctor had recommended gentle movements with her fingers to regain full usage and strength, but she was forgetting to do this at home. This class was helping her hand and after only two sessions, she was experiencing better feeling and movement.

Finances

2 participants completed evaluations which asked how they plan to change their behavior as a result of attending issue team programming

- Both participants plan to regularly track their income and spending
- Both participants plan to take steps to secure their financial records to prevent identity theft

Jobs & Employment

7 participants completed evaluations which asked how they plan to change their behavior as a result of attending issue team programming

- 57% are confident they can get and keep a job
- 86% are prepared to balance family and job needs if/when a major life change occurs
