

Strengthening Oklahoma Families

Texas County

2014 FCS Impacts

SELECTED ISSUES

Health

- 2,107 babies were born from 2005-2011
- 173 babies were born with low birth weight
- 9% of the population has been diagnosed with diabetes
- 31% was estimated to be obese in 2010
- 32% have been found to be physically inactive

Risky Behaviors

- 410 teen births from 2005-2011
- 4 alcohol impaired driving deaths in the county
- 14% of all driving deaths involve alcohol
- 10% decrease countywide in school drop-out rates

Resilience

- 18% (1,067) of children in the county live in poverty
- 223 children annually have a parent who is incarcerated

EXTENSION'S RESPONSE

Health

47 adult participants completed evaluations which asked how they planned to change their behavior as a result of attending Health Issue Team programming.

- 51% intend to follow a plan to manage their health conditions
- 68% plan to cook meals at home
- 50% plan to use simple recipes to cook food

Risky Behaviors

18 young people learned more about science and technology at the Yarbrough School. They have asked me to come back as the teachers helping with the program was very impressed with the curriculum. Many of the youth reported that they had never completed a project of this nature and that they learned a lot.

Resilience

1 participant in Co-Parenting for Resilience gave permission for their evaluation to be used in state wide reporting.

- The participant rated the program as very useful in motivating them to change their behavior toward their co-parent
- The participant rated the program as very useful in teaching them new ways to be an effective parent during and after the divorce
- The participant would recommend the program to a friend who was divorcing

6 participants in the Active Parenting Now program completed the evaluation

- 83% of the participants strongly agree that children need encouragement as much as they need discipline
- 67% of participants feel sure of themselves as a mother/father
- When things are going badly with their child 83% of participants will keep trying until things begin to change
